REGISTRATION INFORMATION

Registration deadline is May 4, 2018. If sufficient registrations are not received for a particular class, the course will not be offered. Registrants will be notified in time to make a change. **Students should register in the grade that they are now enrolled.** If registrations are submitted late, students run the risk of not being able to take their first choice of classes.

COURSE OFFERINGS

ACCELERATED READING (Grades 3-8)

This reading class is offered for students who love to read. We will be digging into different novels using literature circles and other creative and fun ways. We will be reading a variety of genres such as mysteries, plays, and learning about new series that are coming out. Our love of reading will inspire us to be creative and keep the desire flowing in new ways.

AMAZING EARTH, ITS OCEANS, OUR GALAXY, AND BEYOND (Grades 3-8)

A four-week course designed to give students in grades 3, 4, 5, and 6, the opportunity to explore the many wonders of our own planet, galaxy, and beyond. Topics include: the Earth and its many amazing features such as earthquakes, volcanoes, the vast oceans and the life found in them, the moon and its many aspects, the stars and constellations along with their history and use for guidance, as well as an intense study of the other planets in our solar system. In addition, students will become familiar with other celestial bodies such as comets, asteroids, and even other galaxies.

Many activities include discovery-based projects designed to help students learn through exploration. In addition, computers will be utilized to further enhance the student's knowledge of our planet and beyond. If possible, a field trip will be used to give students hands-on opportunities to increase their understanding of the planet we live on.

ART ATTACK (Grades 3-8)

Students will transform everyday objects into two-dimensional and three-dimensional art forms. Everything from cardboard tubes and egg cartons to colorful plastic bags will be incorporated into art projects such as hand-made books, puppets, funky jewelry, and much more. We will attack art projects with creative ideas and unusual materials. The final project will be designing a castle.

BASIC FIRST AID (Grades 3-8)

This course is intended to teach skills and procedures that will enable students to act correctly in first aid situations. Safety skills covered include information on how to get help, bicycle safety, what to do in case of a fire, how to control bleeding, poisoning, water safety, the Heimlich maneuver, and mouth-to-mouth resuscitation. A mannequin will be used for this portion of the training. Students will assemble a basic first aid kit which will be taken home along with a reference manual and a babysitter's guide.

BOARD GAMES (Grades 3-8)

Sharpen your skills, practice your strategies, improve your math, increase your vocabulary, get better at games you know and learn some new ones too. Chess, checkers, scrabble, and many more.

ELEMENTARY DESIGN AND CONSTRUCTION (Grades 3-8)

The students will design and construct various projects using Lego kits. They will also use recyclable materials to design and construct bottle rockets, model rockets, paper airplanes, kites, crash cars, and boats. Finally, the students will test their finished products.

EXPLORING THE WORLD OF TECHNOLOGY (Grades 3-8)

The goal of this course is to allow students to explore the many technology resources available in our world today while improving their computer and presentation skills. Students will be using chromebooks to explore many things, such as: Google Docs, Google Slides, Google Drawings, Newsela, Kid Blog, Powtoon, WeVideo, Prezi, Kahoot, Splice, many fun educational games, and much much more!

FUNDAMENTALS OF SPORTS IN AMERICAN CULTURE FOR BOYS AND GIRLS (Grades 3-8)

This class is divided into five parts; one for each of the Summer School weeks.

Fundamentals of Golf - This section will include basic instruction on fundamentals of golf. Students will learn the rules and etiquette of golf. Students are encouraged to bring their own clubs but not required. School will provide those that need. This section will provide students practice repetition on putting, chipping and building up a full golf swing. (Students that are interested in playing more golf may sign-up for another golf summer school class offered the week of July 9th - 13th 12:30 – 3:30 which includes playing time at The Valley golf course).

Fundamentals of Ultimate Frisbee Golf - Students will learn the rules, strategies and fundamentals of both Ultimate Frisbee and Frisbee Golf. Techniques will be practiced and games of both will be played.

Fundamentals of Yard Games - Students will learn the rules and strategies as well as play many of the popular yard games. Games such as Bocce Ball, Bean Bag Toss, Croquet, and Ladder Golf will be played.

Fundamentals of Bowling - Students who take this introductory class will work on stance approach, choosing a ball, grip, approach, score keeping and team/individual play. Skills will be put into use at Wagner's Lanes in Eau Claire on a field trip.

Team work cooperative games- This section will include a variety of team cooperative games such as big base, survivor, wiffle ball/softball, tag games, etc.

MATH IN THE KITCHEN AND CRAFTING (Grades 3-8)

A four week course is designed to give students an opportunity to use math skills such as measuring, fractions, addition, subtraction, multiplication, and division while making fun foods and crafts. Students will learn how to sew simple projects, demonstrate how to make creative crafts and learn the importance of food and nutrition. A variety of simple snacks and foods will be prepared. The focus will be on making quick, good food in a safe way. We will also be exploring the importance of eating healthy by preparing balanced foods.

OUTDOOR ADVENTURES (Grades 3-8)

This course will primarily take place outdoors with a large focus being on outdoor recreation. Objectives and activities will include but not be limited to: basic hiking skills, making a walking stick, basic kayaking skills and water safety, basic bike safety, basic bike maintenance, campfire basics and safety, as well as participating in numerous nature games and other outdoor activities. **Students will need to wear athletic shoes and/or hiking boots and have access to their own bicycle, helmet, and life preserver.** A bike, helmet, and life preserver will not be supplied and is a must for this course. A field trip may be scheduled to visit various hiking and/or bike trails in the area.

PEAK PERFORMANCE (Grades 6-7)

Students will be introduced to the fundamentals of weight training and speed and power development. Developmentally appropriate activities will be used to give students the foundations needed to reach their potential physically. This will be accomplished in an engaging, dynamic, and safe environment.

READING AND CREATIVE DRAMATICS (Grades 3-8)

This is a course to acquaint children with other forms of Reading. Students will be given opportunities in writing, casting, and producing plays. Choral readings and student videotaping are part of this class. The class will also consist of many exercises, improvisations, and musical theater games as well as the opportunity to perform in a small musical/play for the end of the summer class.

STEM EXPLORATION CLASS (Grades 3-8)

Do you enjoy designing, building, and experimenting? Join us in our STEM class this summer! STEM classes focus on Science, Technology, Engineering, and Mathematics. This class will offer students a hands-on learning opportunity. Students will investigate a variety of topics ranging from Aerospace to Robotics.

AFTERNOON SUMMER SCHOOL CLASSES

*****Transportation will not be provided*****

JUNE 11-15

INTRO TO TRACK AND FIELD

Students will be introduced to some of the events in track and field, such as: Long Jump, High Jump, Shot Put, Hurdles, Relays, Sprints, Mid-distance, and Long-distance. Students will also play a fun game every day! One objective of the class is to learn more about track and field. However, most importantly, students will have the opportunity to simply MOVE more while also having fun! Parents are encouraged to come as well and walk/run and observe if they want.

Grade 3-8	June 11-15	12:30-2:00
------------------	-------------------	-------------------

JUNE 18-22

BASEBALL/ SOFTBALL FUNDAMENTALS

Participants will learn and develop basic to intermediate baseball/softball skills and strategies to be a successful fast pitch baseball/softball player. Specific position and offensive skills will be covered and then put into action through game play.

Grade 3-5	June 18-22	12:30-2:00
Grade 6-8	June 18-22	2:00-3:30

JUNE 18&19

VOLLEYBALL FUNDAMENTALS

The basic volleyball skills of passing, setting, serving and attacking will be taught and incorporated into skill drills and game play. Equipment, drills, and game rules will be adapted to meet the needs of specific age groups and abilities. This class is an important step toward lifelong athletic interest in the game of volleyball.

Grade 6-8	June 18&19	12:30-2:00
Grade 3-5	June 18&19	2:00-3:30

JUNE 25-29

BUFFALO BASKETBALL CLASS

Basketball participants will learn and build upon the basic skills of passing, dribbling and shooting. This class will build upon basic skills of the game and challenge participants to further their own individual skills. While this class will advance the skills of individuals that have already been engaged in basketball previously, it also offers the perfect opportunity for any individual to experience the fun and enjoyment basketball offers.

Competitive skill tests will allow participants to track their own growth throughout the week.

Grade 3-5	June 25-29	12:30-2:30
Grade 6-8	June 25-29	3:00-6:00

JUNE 25-29

TENNIS

This class is intended for both boys and girls. In this session participants will learn the basic fundamentals of the game such as the forehand, backhand, volley, and serve. These skills will be taught through both a variety of drills and games. In addition, students will be introduced to basic scoring and rules.

Grade 8-11	June 25-29	8:30-10:30
Grade 5-7	June 25-29	10:45-12:00
Grade 3-4	June 25-29	12:30 -1:30

JULY 9-13

FUNDAMENTALS OF FOOTBALL

Participants will learn the basic skills of passing, catching, and blocking in this class. These skills will be incorporated into skill drills as well as game play. We will also learn basic strategies for the game of football through various types of drills and games. Equipment, drills, and game rules will be adapted to meet the needs of specific age groups and abilities. This class is designed to create success and enjoyment for the game of football and a heightened interest for the sport.

Grade 3-5	July 9-13	12:30-2:00
Grade 6-8	July 9-13	2:00-3:30

JULY 9-13

BOYS AND GIRLS GOLF

This introductory golf class brings exposure to a lifetime sport. It will teach fundamentals skills, rules, scoring and etiquette for the game of golf. Students will learn the skills of using the putter, short irons, long irons, and woods. Including practice swings for Driving, chipping, pitching and putting at The Valley Course.

Demonstrations and practice strategies for bunker and trouble shots. **The class will also include introduction to different types of tournament play and league play at The Valley Course.** Equipment is provided by the District. However, it is recommended the student bring their own personal or family owned clubs that may better fit the individual.

Grade 3-8	July 9-13	12:30-3:00
